

Special Issue

Strategic and Managerial Decision Making for Enterprise Sustainability

Message from the Guest Editor

This Special Issue aims to present a selection of theoretical, review, and empirical (qualitative or quantitative) papers covering the breadth of strategic and managerial decision-making for the sustainability and survival of enterprises over the long-term.

Experimental research methods are also welcome.

Thus, topics of interest include (but are not limited to) the following:

- Bounded rationality, heuristics, and traps in enterprise decision-making;
- Traditional and forefront problem-solving techniques;
- Emotions, creativity, and intuition to enhance the quality of decisions;
- *Intra* and *inter*firm negotiations for sustainable decision-making;
- Sustainable decision-making in the workplace;
- Self-reinforcing decisional processes;
- Decision-making and business ethics;
- (Big) data-driven decision-making, artificial intelligence, and sustainable business models;
- Decision-making and behavioral strategy.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
