

## Special Issue

# Strategic and Managerial Decision Making for Enterprise Sustainability

### Message from the Guest Editor

This Special Issue aims to present a selection of theoretical, review, and empirical (qualitative or quantitative) papers covering the breadth of strategic and managerial decision-making for the sustainability and survival of enterprises over the long-term.

Experimental research methods are also welcome.

Thus, topics of interest include (but are not limited to) the following:

- Bounded rationality, heuristics, and traps in enterprise decision-making;
- Traditional and forefront problem-solving techniques;
- Emotions, creativity, and intuition to enhance the quality of decisions;
- *Intra* and *inter*firm negotiations for sustainable decision-making;
- Sustainable decision-making in the workplace;
- Self-reinforcing decisional processes;
- Decision-making and business ethics;
- (Big) data-driven decision-making, artificial intelligence, and sustainable business models;
- Decision-making and behavioral strategy.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
