

Special Issue

Management Science in the Context of Sustainability in Agrifood

Message from the Guest Editor

We invite you to submit your papers to the Special Issue “Management Science in the Context of Sustainability in Agrifood”. Management in sustainable agriculture on farms as well as at the policy level is complex and deals with decision-making processes with multiple conflicting goals and in most cases is also related to satisfying the needs of multiple stakeholders with different goals. The aim of the Special Issue “Management Science in the Context of Sustainability in Agrifood” is to present papers dealing with applications in the areas of agriculture, with special emphasis on agricultural economics and farm management in addition to highlighting the present state and perspectives of theory and in sustainability in agrifood based on management science. Methodological papers and cases studies are also welcome. The Special Issue will focus on the development and application of farm management research methodology, modeling tools, and practice for decision assessment and support in sustainable agrifood systems, the environment, farm management, agribusiness, and related fields.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
