

## Special Issue

# Emerging Research of Eminent Scholars in Sustainable Manufacturing

### Message from the Guest Editor

As the manufacturing industry's impacts on the economy. It is necessary to aggregate the latest case studies and data analyses to shape the industry strategies while expediting the diffusion of environmentally friendly manufacturing practices. As such, wide-ranging participation from academia, corporations, government and NGOs is required to develop feasible methods and take meaningful action. This Special Issue will serve as a key platform for such discussions, aiming to create a more sustainable manufacturing industry. We cordially invite you to publish your Frontier Research in Sustainable Manufacturing in 4th Industrial Revolution in this special issue. Possible topics for the articles in this special issue may

include but are not limited to the following:

- Business Knowledge Management and Technology Development Strategy for Sustainable Manufacturing;
- Technology-Service Convergence (Servitization) for Sustainability;
- Digital Transformation and Its Social and Energy/Environmental Implications;
- Social innovation through Advanced Manufacturing, Green Supply Chain Management;

...

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
