

Special Issue

Residents and Stakeholders in Mass Tourism Destination and New Scenarios

Message from the Guest Editors

This Special Issue aims to collect papers on:

- Analysis of the attitudes of residents in mass tourism areas.
- Studies on growth processes linked to tourism-phobia, touristification and over-tourism.
- Compilation of experiences of social impacts in these destinations: protests, stakeholder analysis, the role of citizen and professional associations, the role of the media, etc.
- Study of plans, regulations, and control measures in the management of crowded tourist areas.
- Demographic and economic changes identified in recent years in mass tourism destinations. Study of cases.
- Transformations and urban actions in mass tourism destinations.
- Environmental impacts linked to intensification processes.
- Analysis of the global and local processes in which mass tourism destinations are framed
- Collection of proposals for new tourism models in the face of the Covid-19 challenge.
- Study of good practices adapted to environmental (climate change) and economic changes (impact of Covid-19).

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
