Moving towards Maturity in Sustainable Human Resource Management

Message from the Guest Editors

Recent times have seen an interest in sustainable human resource management (HRM) as a result of growing concerns of negative impacts on the environment, worker well-being, distribution of wealth, and productivity. At its core is the relationship between sustainability and HRM. Sustainable HRM typically refers to human resource policies, strategies, and practices that seek economic, ecological, human, and social outcomes to satisfy the long-term needs of the multiple organization's internal and external stakeholders. Its importance stems from addressing a timely topic among practitioners and for extending the academic discourse of HRM. While its origins can be traced back to the beginning of this century, sustainable HRM is still at an embryonic stage of development. Scholars are still grappling with several foundational concepts and the literature remains fragmented among various disciplines and fields.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
