

Special Issue

Microgrids for E-mobility: Electrical Machines and Drives, Power Conversion and Energy Management

Message from the Guest Editors

We invite you to contribute to this Special Issue with your latest research on microgrids for e-mobility. The scope of the proposed Special Issue is to define the state-of-the-art for e-mobility microgrids, in order to give to readers the opportunity to select the best solution for their own applications. This Special Issue invites original papers on but not limited to: 1) Microgrid and subsystem modeling; 2) Hardware in the loop methods with physical validation and tests; 3) Electrical generators, motor and drive design and testing; 4) Power electronic converter modeling and testing; 5) Energy management strategies and techniques; 6) Microgrid reliability and availability; 7) Fault detection.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
