

## Special Issue

# Minerals, Metals and Sustainability

### Message from the Guest Editors

The field of minerals, metals, and sustainability examines the exploitation of minerals and mineral products and the implications for sustainability of the consumption of finite mineral resources and wastes associated with their production and use, representing an important topic for researchers of engineering and applied science and geology. Many minerals and metals can be recycled using various processes and repurposed to meet different environmental needs. We welcome authors to submit research and review papers to this Special Issue. Of particular interest are original and/or review papers addressing (but not limited to) the following topics related to sustainability:

- New technology of minerals and metals and environmental protection;
- Research and development of reusing minerals and metals;
- Minerals industry and sustainable development;
- Recycling and return rates for minerals and materials;
- Reducing and eliminating wastes of minerals and metals;
- Sustainable minerals and metals for saving energy of low carbon uses.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
