Special Issue

Low-Grade Heat-Driven Multigeneration Systems

Message from the Guest Editors

The topics of interest for publications include but are not limited to:

- Thermodynamic cycles for waste heat recovery;
- Solar thermal refrigeration;
- Hybrid cycles and architectures;
- Combined cooling and power (CCP) cycles;
- Cogeneration, trigeneration and polygeneration systems;
- Energy and exergy analysis;
- Modelling, simulation and optimization of systems;
- Integration of thermal energy storage;
- Heat transfer enhancement;
- Geothermal energy utilization;
- CFD design and optimization for higher energy efficiency;
- Working fluid section;
- Thermo-economic optimization.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
