Special Issue

Multidisciplinary Approaches to Multilingual Sustainability

Message from the Guest Editor

To this purpose, the Special Issue aims to collect empirical and theoretical contributions related to the study of multilingualism from a multidisciplinary perspective. Studies might address the implications of multilingualism at the individual (e.g., cognitive, and psychological effects across the lifespan), clinical (e.g., implications for clinical interventions), educational (e.g., impact on educational practices) and social levels (e.g., language policies). Research topics include but are not exclusive to cognitive effects of bi-multilingualism, biliteracy, bilingual education, social aspects of multilingualism, heritage language, and minority languages, language policy.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
