

## Special Issue

# Sustainable Design in Offsite Construction

### Message from the Guest Editor

This Special Issue will comprise papers covering offsite design and construction, with a particular emphasis on sustainable strategies, including the use of life cycle impact assessments and the environmental impact assessments of transporting modular buildings. It will also include papers addressing measures aiming to mitigate the environmental impacts on offsite construction industry. Methods include assessing the environmental sustainability of the offsite production chains, including holistic methods, such as life cycle assessment (LCA), and other modeling approaches.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
