

Special Issue

Sustainable Organic Agriculture for Developing Agribusiness Sector

Message from the Guest Editors

Developing sustainable organic agriculture and resilient agribusiness sector is fundamental, with the expectation for the global population to reach 9.8 billion by 2050 and 11 billion by 2100. While the current environment worldwide provides a number of mechanisms to support agribusinesses in mitigating organic food for daily increasing human population and stability of the currency, it does not contemplate the relative readiness of individuals and businesses to act properly. Organic farming is the practice that relies more on using sustainable methods to cultivate crops and produce food animals, with avoiding chemicals and dietary synthetic drug inputs that do not belong to the natural ecosystem. This Special Issue welcomes papers focused on the latest knowledge and innovations on sustainable organic agriculture, rural development, agricultural economy, policy and management, sustainable food technology, and food safety principles.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
