

Special Issue

Organisation Management for Environmental Sustainability

Message from the Guest Editors

The purpose of the Special Issue will be to bring together scholars interested in the broadly understood pro-environmental approach to organisational management. We encourage an interdisciplinary perspective on an organisation and its milieu, combining an individual and organisational approach, bearing in mind that only comprehensive and multi-level strategies can result in environmental benefits. The list of topics below is by no means exhaustive; they are merely suggestions for scientific investigation. This special issue welcomes contributions presenting both conceptual frameworks, systematic literature reviews and empirical results in the following areas:

- green CSR
- green HRM
- constructing relations with business environment (including customers) on the basis of pro-ecological principles and guidelines
- pro-environmental education of customers
- green performance
- eco-innovations, extending the life-cycle of products
- leadership
- pro-environmental behaviours of employees
- ecological trends in consumer behaviours

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
