

Special Issue

Overtourism in Historic Cities

Message from the Guest Editor

This Special Issue aims to provide a space for reflection and debate about these processes. Aspects such as the nature and measurement of the phenomenon are especially interesting. What is overtourism? How is it measured? What are the perceptions of the phenomenon? However, the measures adopted to address overtourism are also interesting. What policies have been applied? How is overtourism integrated into the urban planning of historic centers? Keywords

- tourism planning and overtourism
- overtourism, carrying capacity, and urban sustainability
- overtourism indicators in historic cities
- stakeholders and overtourism perceptions and discourses
- overtourism, big data, and urban planning in the historic city
- effects of overtourism in urban centers
- overtourism and urban heritage
- overtourism and urban policy

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
