

Special Issue

Patient Centredness, Values, Equity and Sustainability: Professional, Organizational and Institutional Implications

Message from the Guest Editors

We envisage this Special Issue becoming a cornerstone of the scientific literature, illustrating the potential of patient-centered practices and related values to make healthcare sustainable through the promotion of a more equitable and ethical care provision. We are interested in opening up a collection of papers that dig into this field and illustrate the many possibilities, interpretations, and questions connected to the challenges of pursuing sustainable care under the orientation of patient centeredness and an aware positioning and debate around the values in play. The invitation is open to an interdisciplinary debate, welcoming studies that are grounded on the different social sciences applied to healthcare: psychological, sociological, organizational, and management studies, as well as economic, philosophical, and anthropological views all are able to enrich such fields, and to propose new attention to navigate this intricate debate and future possibilities for healthcare, with a specific look to the professional, organizational, inter-relational, and institutional implications.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
