

Special Issue

Photovoltaic System: New Concept, Design and Applications

Message from the Guest Editors

The original intention of this special issue is to explore new photovoltaic systems that can be interesting concepts, novel designs, and potential applications, which aims to further promote the development of solar photovoltaic techniques and correspondingly achieve fossil energy saving and greenhouse gas emissions reduction. Topics covered in this special issue include, but are not limited to, the following: New concepts of photovoltaic conversion system; Innovative cooling techniques for photovoltaic system; Concentrate photovoltaic systems; Novel building-integrated photovoltaic systems; Advanced materials for photovoltaic conversion; Recycling technique for photovoltaic modules; Hybrid energy system with photovoltaic conversion; Energy storage techniques for photovoltaic systems; Small and/or off-grid photovoltaic system; State-of-the-art reviews on photovoltaic systems

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
