Special Issue

Planning for a Sustainable Marine Future

Message from the Guest Editors

This Special Issue collates contributions on innovative research focused on advancing science and developing or applying tools to inform the design, development, and implementation of nature-based solutions aimed at supporting coastal and marine ecosystem services and people's wellbeing worldwide. Emphasis is given to papers that define, test, and scale up solutions in integrated land-sea, coastal, and marine spatial planning and have clear potential to support human wellbeing at different scales. We encourage submissions that identify barriers and opportunities to solutioning our environmental challenges, pave ways forward to transform our approaches to mitigate and adapt to climate change, and provide useful tools to support this process. We are looking forward to learning about your research for the sake of restoring ocean health, fostering human well-being, and supporting economies.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario Institute of Technology, Oshawa, ON L1G OC5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
