

## Special Issue

# Pollution in Freshwater Systems and Water Quality Assessment

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Contaminants transport in (un)saturated porous media (e.g., soil, mineral rock sediment);
- Fate and behavior of micro/nano plastics in fluvial systems;
- Adsorption and desorption of contaminants in the aquatic environment;
- Water quality assessment and health risks evaluation;
- Hydrochemical characteristics of groundwater or surface water;
- Numerical studies on the migration of pollutants in groundwater or surface water.

We look forward to receiving your contributions.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
