# Pollution in Freshwater Systems and Water Quality Assessment

### Message from the Guest Editors

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Contaminants transport in (un)saturated porous media (e.g., soil, mineral rock sediment);
- Fate and behavior of micro/nano plastics in fluvial systems;
- Adsorption and desorption of contaminants in the aquatic environment;
- Water quality assessment and health risks evaluation;
- Hydrochemical characteristics of groundwater or surface water;
- Numerical studies on the migration of pollutants in groundwater or surface water.

We look forward to receiving your contributions.

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
