

## Special Issue

# Procurement for a Sustainable Built Environment

### Message from the Guest Editors

The guest editors of this Special Issue would especially welcome contributions that explore and discuss aspects such as: the combination of sustainable requirements and procurement strategies during implementation; client competences and strategies; and system level structures and policies. More generally, we appreciate contributions that further our understanding within strategic, organizational, practical, behavioral and/or instrumental aspects of sustainable procurement in the built environment.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
