

## Special Issue

# Procurement for a Sustainable Built Environment

### Message from the Guest Editors

The guest editors of this Special Issue would especially welcome contributions that explore and discuss aspects such as: the combination of sustainable requirements and procurement strategies during implementation; client competences and strategies; and system level structures and policies. More generally, we appreciate contributions that further our understanding within strategic, organizational, practical, behavioral and/or instrumental aspects of sustainable procurement in the built environment.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
