

Special Issue

Sustainability in Project Management in the Digital Transition Era: Principles, Tools and Practice

Message from the Guest Editors

Sustainable Project Management is the planning, monitoring and controlling of project delivery and support processes, with consideration of the environmental, economical and social aspects of the life-cycle of the project. In a world of global digital transition the achievement of the sustainable objectives in business activities for 2030 is one of the key elements of project evaluation. It determines the go/no go for subsidization and the go/no go for delivering certain products to the market. The digital transformation will put project managers ahead of new problems, but also new methods and new techniques to scope them. Project Managers must also be aware of this new reality and start to adopt measures from the very beginning of the life cycle process project management and take decisions consciously, considering all relevant aspects in the best managing practices. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
