

Special Issue

Sustainable Regeneration of Degraded Urban Structures and Fabric

Message from the Guest Editors

The Special Issue is open for contributions that respond to the following questions:

- What are the effects of urban regeneration intervention on the city as a polycentric socio-spatial system?
- How does urban regeneration intervention support mitigation, resilience, and the antifragility of the city as a polycentric socio-spatial system?
- What are the steps of a regeneration process that allow departing from rundown or unused buildings and facilities?
- Which evaluation tools and decision support systems were used to implement urban regeneration intervention?
- Which evaluation tools and decision support systems were used to implement urban regeneration intervention?
- Does the policy support urban that departs from rundown and/or unused buildings and facilities? Which policy modifications are required for such an intervention?
- Which participatory models were used to implement the urban regeneration project?

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
