

Special Issue

Reversible Energy Saving Renovation Techniques in Historical Buildings

Message from the Guest Editor

For this special issue contributions are welcome tackling all aspects important to evaluate and possible Reversible Energy Saving Renovation Techniques for Historical buildings. The retrofitting intervention, when carried out on historical or heritage buildings, has to ensure the amelioration for the building as a whole: building and its artworks as being part of the same *heritage* significance.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
