

Special Issue

Integrated Urban Regeneration to Transform Sustainable and Resilient Built Environments from Circular Economy Principles

Message from the Guest Editors

The editors are delighted to receive for this special issue numerous research studies that address a wide range of urban regeneration and building renovation issues, from multidisciplinary approaches that consider sustainability, resilience, and circular economy criteria as key patterns to apply and promote in the built environment. Research areas may include (but not limited to) the following:

- Urban regeneration strategies from different a sustainable, resilient, and multidisciplinary approach.
- Multi-scale assessment models for diagnosing the building stock and the urban planning.
- Weighted assessment models for decision-making that promote an efficient urban regeneration and ensure the adaption of the built environment to climate change.
- Multidisciplinary studies that address the management of building renovation from different socioeconomic contexts.
- Level(s) as a common language for incorporating sustainability indicators in buildings.
- Circular economy applied to the built environment.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
