

## Special Issue

# Frontiers in Resources Recovery and Clean Energy of Sustainability from Geo Resources

### Message from the Guest Editors

This Special Issue is dedicated to exploring recent contributions of science and technology to adopting sustainable measures for energy and resource recovery as well as developing technologies for efficient use of finite natural resources. We will particularly welcome submissions on the following topics:

- Sustainable clean energy technologies from geoenery resources, including environmentally safe sustainable technologies for georesource recovery, for example, minerals, rare Earth elements, oil/gas, and geothermal energy;
- Emerging technologies for geoenery and georesource exploration and assessment;
- Analysis and modelling of geoenery production and georesource recovery and management;
- Initiatives towards the circular economy in the field of georesource utilization;
- Environmental, economic, and social concerns of geoenery and georesource recovery;
- Role of geoenery and georesource recovery in tackling climate change;
- Case studies of international interest that demonstrate successful implementation processes and strategies.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
