

Special Issue

Risk-Informed Decision-Making in Sustainable Management of Industrial Assets

Message from the Guest Editors

New concepts and approaches in AM modeling and the related decision-making process are needed. A holistic, risk-informed decision-making (RIDM) approach has appeared as a promising path forward, capable of capturing insights from various concepts, models, and their limits, the complexity and uncertainties, as well as the strength of knowledge of analysts, experts, and decision-makers. In this Special Issue of *Sustainability*, we invite submissions focused on “Risk-Informed Decision-Making in Sustainable Management of Industrial Assets” in the context of the overall operating and business complexity. Thus, of interest are papers that contribute to the body of knowledge by examining links between AM, resilience, and complexity as well as the impact of various influencing factors in AM decision-making in both quantitative and qualitative manners.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
