

Special Issue

The Role of Transport Infrastructure in Regional Development

Message from the Guest Editors

We are pleased to invite you to present the results of your research in the field of the impact of transport infrastructure on regional development. This Special Issue aims to capture the various effects of transport infrastructure development at regional level: from improved accessibility, environmental effects, sustainable development, impacts on inter-regional trade and transport costs, location of new private sector investment, to redistribution of regional income. The effects themselves can be demand or supply, distributive or generative, temporary or permanent, direct user benefits or indirect (via demand or via supply) wider effects, including socio-economic spillovers (accessibility, environment, employment, efficiency or social inclusion).

In this Special Issue, research areas may include (but not limited to) the following effects: econometric production function estimates, regional modelling, international trade modelling, LUTI or SCGE models, cost benefit analysis and multi-criteria analysis, accessibility and potential models.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
