

Special Issue

"Acting Together" for Safer and Sustainable Communities: Unveiling the Value and the Need of Transdisciplinary, Participatory and Nexus Approaches (DG REGIO CITI4GREEN)

Message from the Guest Editors

This Special Issue aims to gather scientific investigations, case studies and professional practice applications from research and innovation projects promoting and adopting transdisciplinary, participatory and nexus approaches. This proposed collection of articles seeks to summarize current knowledge and innovative methods on community engagement and citizen science procedures, tools and data applied in diverse disciplinary, geographic and socio-cultural settings interested by natural and human-made hazards, sustainable development and cooperation actions, the fair and safe use of natural and human resources, as well as green-blue and circular economy interventions. Further expected contributions include studies related to ongoing recovery, resiliency and cohesion actions aiming to manage and mitigate nuisance socio-economic and environmental impacts linked to climate change, hydro-extremes (e.g., recent 2021 EU and global floods), earthquakes (e.g., central Italy in 2009 and 2016) among other natural and human-made disasters, including studies and programs linked to the ongoing COVID-19 pandemic.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
