

Special Issue

Performance and Durability of Sustainable Cementitious Mixtures

Message from the Guest Editors

This Special Issue aims to add evidence to the scientific progress achieved in the research of the performance and durability of sustainable cementitious mixtures.

Topics of interest are related to the properties and resistance in aggressive environments of sustainable cementitious mixtures based on:

- Calcium sulphoaluminate cements;
- Alkali-activated materials;
- Geopolymers;
- Artificial aggregates;
- C&D waste aggregates;
- Industrial byproducts.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
