## **Special Issue**

# Smart Cities, Connected Communities, and Environmental Sustainability

### Message from the Guest Editors

The goal of this Special Issue is to contribute to the growing body of scientific and engineering work that will enable smart and connected communities to bring about new levels of economic opportunity and growth, safety and security, health and wellness, accessibility and inclusivity, and overall quality of life. In this Special Issue, we invite submissions on the topic of Smart Cities, Connected Communities, and Environmental Sustainability to appear in the journal Sustainability. Specifically, we invite submissions contributing new, innovative models, analysis frameworks, supporting decision-making tools, policy studies on emerging technologies and their impacts on cities and communities, exploring household and consumer behaviors through data, and discussing lessons learned from real case studies.

### **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
