

Special Issue

Smart City and Architecture in the Pandemic Era

Message from the Guest Editor

The global lockdown of cities and countries and related quarantine due to the spread of the coronavirus pandemic have triggered a series of serious questions around the principle of cities and architecture. Conventional belief and expectations in respect of the functions and safety within the frame of a modern city and architecture in daily life have been affected. Simultaneously, this phenomenon is expected to initiate the evolution of the city and architecture. Thus, this Special Issue aims to gather insights and wisdom to relieve this never-before-experienced shock from the perspectives of academia and practitioners in the field of cities and architecture. The areas of interest include but are not limited to: Philosophy and concept; Best practices in the pandemic era; Technology.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
