# **Special Issue**

# Smart Thermal Grids for Sustainable Energy Systems

# Message from the Guest Editor

This Special Issue aims to present a collection of works that advance the state-of-the art of technologies that use thermal energy as a vector to integrate renewable resources or waste heat in our energy systems.

Research studies on the following topics would contribute to the development of smart thermal grids: - Waste heat recovery technologies

- Thermal storage technologies
- District heating
- Heat-exchanging fluids

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
