

Special Issue

Smart Thermal Grids for Sustainable Energy Systems

Message from the Guest Editor

This Special Issue aims to present a collection of works that advance the state-of-the-art of technologies that use thermal energy as a vector to integrate renewable resources or waste heat in our energy systems.

Research studies on the following topics would contribute to the development of smart thermal grids: -

Waste heat recovery technologies

- Thermal storage technologies

- District heating

- Heat-exchanging fluids

Guest Editor

Dr. Maria E. Mondejar Montagud

Department of Mechanical Engineering, Technical University of Denmark, 2800 Kgs Lyngby, Denmark

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
