# **Special Issue**

# Smart Urbanism for Everyday, Everywhere, Everything, and Everyone

### Message from the Guest Editors

In 2014, the United Nations said that a proportion of the world's population living in urban areas is expected to increase to 66 percent by 2050, which poses significant challenges related to environmental, economic, and social sustainability. As the leading paradigm of urbanism today, cities are undergoing a digital transformation, turning into smart cities. A more sustainable and efficient environment for their residents is being emphasized as the most important arena for smart transitions in an increasingly urbanized world. This Special Issue focuses on more innovative solutions and sophisticated approaches for smart cities, underpinned by cutting-edge technologies and groundbreaking scientific knowledge. It helps to monitor, understand, analyze, and plan cities with respect to sustainability, efficiency, resilience, equity, and quality of life. The detailed information and topics of interests can be seen via the following link: mdpi.com/si/72565

## **About the Journal**

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

#### Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
