

Special Issue

Social and Technological Progress. Industry 4.0

Message from the Guest Editor

This Special Issue of *Sustainability* entitled “Social and Technological Progress. Industry 4.0” aims at presenting the results of research on technological and social progress as well as their interaction as a consequence of the so-called Industry 4.0 era. The thematic issue offers an excellent opportunity to exchange experiences among different research centers and professionals dealing with issues related to the Industry 4.0, technological progress, and its impact on society. The published work will provide an excellent source of information on the current state of knowledge regarding social and technological progress in the course of 4 industrial revolutions. The articles will inspire further research, the results of which will enable a better understanding of social and technological changes as well as interactions between them.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
