

Special Issue

Social Networking Sites (SNS) and Digital Learning

Message from the Guest Editor

Dear colleagues, Recently, the advancement of social networking sites (SNS) has had a tremendous impact on society, including business, education, and social activities. It is mainly in the education sector that SNS advancement has a significant role in advancing the instructional process. As a result, an extensive point through critical exploration on SNS on the digital learning environment might provide valuable insight to develop an adaptive comprehension and practice on learning technology. Thus, the main objective of this Special Issue is to advance research and innovation on the potential value of SNS enhanced in facilitating digital-learning enhancement. The main outcome of this Special Issue is to be a substantive part of the digital learning environment to give insights into enhancing the insightful contribution for learning technology together with adaptive technology enhancement.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
