

Special Issue

Soil Quality and Soil Management

Message from the Guest Editors

Healthy soils not only provide a suitable growing environment for plants, but also multiple, essential ecosystem services, such as soil carbon sequestration, biodiversity conservation, erosion control, and water quality. Therefore, for this Special Issue, we encourage the submission of all types of contributions providing the state-of-the-art and new insights on i) soil quality assessments (i.e., quantification of soil chemical, physical and biological indicators, new on-farm, user-friendly, and cost-effective indicators, advances in laboratory analysis and protocols, and development of comprehensive frameworks for monitoring soil quality in natural and anthropized ecosystems); ii) sustainable land uses and management practices that promote soil quality across a wide range of ecosystems around the world; and iii) public perceptions of soil quality, public policies to promote soil and water quality, and strategies to achieve the SDGs through sustainable soil management.

Guest Editors

Prof. Dr. Mauricio Roberto Cherubin

Prof. Dr. Carlos Eduardo Pellegrino Cerri

Dr. Ieda de Carvalho Mendes

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
