

Special Issue

Space for Sustainability: Using Data from Earth Observation to Support Sustainable Development Indicators

Message from the Guest Editors

The editors welcome contributions that explore progress to date and how this informs potential for future use of EO derived data for many aspects of SD and that provide cutting-edge examples of where EO can provide insights, particularly for a number of the socio-economic dimensions of SD that have proved to be challenging to assess. This could include, but is not limited to, the following applications:

- Applications of EO in tracking the state of socio-economic issues at sub-national, national and regional levels;
- Integration of EO with survey data;
- Filling traditional data gaps using EO data;
- Assessing inequalities, poverty, food insecurity, water scarcity using EO data

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
