

## Special Issue

# Sport, Leisure and Social Relations

### Message from the Guest Editors

Sport in general, and sports practice in particular, have established themselves as a social fact in the world. Understanding this situation from the perspective of social benefit is one of the main objectives and analysis of sports policies.

In addition, sports practice is also an important vehicle that favors social relationships, generating continuous situations that facilitate the creation of contacts and relationships that favor socialization, and consequently, the creation of groups that share concerns, interests and values, but that end up generating a relationship of trust and social cooperation.

The issue invites disciplinary specific and multidisciplinary contributions, including but not limited to the following topics:

- Sport and leisure
- Social relations and sport
- Sport and quality of life
- Sports and leisure policies
- Social development and sport
- Physical education and social relations
- Social relations and motivation towards sports practice

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
