

Special Issue

Socio-Economic and Environmental Impacts of Sports Facility Development and Sports Event Management

Message from the Guest Editor

This Special Issue welcomes colleagues interested in the sustainable development of sport facilities for different types of sport events. The focus of this Special Issue is on diverse policies and strategies for diminishing negative socio-economic and environmental impacts of sport facility development. The primary purpose of this Special Issue is to allow sport event professionals to implement adequate policies for minimizing different undesirable outcomes of sport facility development. Original research papers using quantitative and empirical analyses as well as comprehensive review articles are welcome. An indicative, but not exhaustive, list of topics for the Special Issue is as follows:

- Socio-cultural impacts of sport facility and infrastructure development;
- Economic impacts of stadia and venue development for mega sport events;
- Environmental impacts of mega sport event facilities and infrastructure;
- Sustainable sport facility planning and development;
- Innovative technologies for sustainable sport facility development;
- Funding strategies for sustainable sport facility development;
- Social equity and well-being effects of sport facility development.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
