Advances in Sports Science and Physical Activity: New Methodological Perspectives

Message from the Guest Editors

Scientific knowledge about sport and physical activity has been experiencing significant growth in recent years. One of the main reasons for this strong growth has been the incorporation of new sustainable scientific methodologies that have helped address and respond to different problems related to sport. The eruption of these sustainable methodologies has contributed (and continues to do so today) to the scientific development not only of competitive sport, but of any field that has to do with physical activity (school sport, initiation sport, physical activity for elderly, adapted physical activity, etc.). In turn, the use of different technological tools such as video recordings, GPS devices, etc. has helped in parallel with the increase in quality and quantity of the current scientific literature. Studies and scientific works that focus on any aspect of physical activity and sport, and that contribute to increasing knowledge on this matter, will be welcome.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
