

Special Issue

Tourist Routes and Trails

Message from the Guest Editor

In this special edition of *Sustainability* we seek to explore these popular linear attractions from the perspective of their potential to promote sustainable local economies, environments and experiences using a range of case-study based and more theoretical studies of the concept of the route or trail and their functions and impacts within their wider social, cultural, economic and ecological environment. A particularly under-researched area is the experience of trail and route users and so we would welcome papers that address this area or any other related fields as above.

Keywords:

- Tourist trail
- Themed route
- Sustainable routes and trails
- Trails development
- Trail and route users' experience
- Routes trails and their communities
- Impacts of tourist routes and trails

Guest Editor

Dr. Nicola MacLeod

Faculty of Business, University of Greenwich, UK

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.
