

Special Issue

Strategic Management for Sustainable Growth and Development

Message from the Guest Editors

The purpose of this Special Issue is to enhance the knowledge and stimulate discussion at the intersection of strategic management and sustainable development. Issues related to sustainable development are becoming more and more crucial to companies, regardless of their location, size, or industry. The grand challenges of climate change, loss of biodiversity, poverty, etc. require fast action by all sectors of society. Furthermore, the upcoming post-pandemic economic recovery may present new opportunities for investing in sustainable transformation and growth. Whether sustainability efforts result in performance improvements is a question that scholars have attempted to answer. Regardless of the efforts, it still seems unclear how and when companies can generate positive performance outcomes through investing in sustainable development. This may be a question of internal or external organizing; however, what is clear is that efforts so far have not resulted in the desired outcomes at the global level. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
