

Special Issue

Applications of Artificial Intelligence for Sustainable Development (AAISD)

Message from the Guest Editors

Artificial Intelligence (AI) in general and some of its subfields in particular are being perceived as some of the most promising technologies today. On the other hand, sustainability has been and still is one of the major concerns at the present time.

The present Special Issue aims at exploring the synergies of these two fields by studying cases of AI being used for social good and its latest advances. It is open to research papers on practical applications of AI for Sustainable Development, based on empirical experiments. Original contributions, including both data and knowledge-driven AI solutions, are cordially welcome. By means of this Special Issue, some fundamental concepts and associated AI techniques applied for sustainability will be further dealt with and promoted.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
