

Topical Collection

Blockchain Technology

Message from the Collection Editor

This Special Issue aims to establish a theoretical framework for the use of the blockchain technology and contribute to the revitalization of the use of the blockchain technology by discovering success stories and empirical studies of the use of the blockchain technology in various areas. To this end, we are looking for papers on the use of blockchain technology in various fields as follows. Topics of interest include but are not limited to:

- Empirical analysis research on the use and adoption of blockchain technology
- Case studies on the implementation of information systems using blockchain technology
 - Financial sector: banking, securities, insurance, etc.
 - Public sector: public services, public welfare, etc.
 - Logistics and distribution sector: general trade, agri-food distribution, marine logistics, etc.
 - Enterprise information system sector: business process redesign, data management, etc.
 - Medical/healthcare field
- The new business model based on blockchain technology
- Regulatory and legal issues related to the use of blockchain technology, etc.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
