

Special Issue

Increasing Sustainability of the Construction Industry through Resource Efficient Transportation and Production

Message from the Guest Editors

The purpose of this Special Issue is to present ongoing research on how to increase sustainability through resource efficient transportation and production in the construction industry. In this Special Issue, we are looking for studies based on proof of concept or adoption in the industry, based on a wide variety of empirical research approaches including, but not limited to simulation, case based research, and surveys. We are also welcoming studies on project, portfolio, urban development and city level, focusing on the logistics to and from the construction areas, or on the construction site, in order to cover the complexity of the subject.

- circular flows
- construction logistics
- construction supply chain
- productivity
- resource utilization
- service management
- sustainability
- transport emissions
- urban development

Guest Editors

Dr. Anna Fredriksson
Prof. Dr. Martin Rudberg
Dr. Micael Thunberg
Dr. Ahmet Sezer
Dr. Mats Janné

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
