

## Special Issue

# Sustainable Engineering Education

### Message from the Guest Editors

The wide scope of engineering encompasses the importance of working in line with sustainable development. The multiple applications of engineering and the service it offers to society cannot be broken down from a sustainable vision. To achieve this challenge, future engineers who are currently being trained in higher education institutions must acquire the knowledge and skills that enable them to adapt to these new requirements, breaking with the traditional vision of engineering education, and to focus on a sustainability approach where technological innovation, social progress, and environmental impacts locally and globally come together to develop new projects, products, and services which are friendlier to the environment. Sustainability in Engineering Education is essential for future engineers to become catalysts of change towards a more sustainable society.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario  
Institute of Technology, Oshawa, ON L1G 0C5, Canada

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
