Special Issue

Sustainable Health: Fitness and Sports after COVID Pandemic

Message from the Guest Editors

Fitness and sports ecosystems have been considerably impacted by the COVID-19 pandemic. The varied ways in which this unprecedented phenomenon has affected the health of the population and their behaviors toward fitness and sport has received much attention from researchers in many areas that range from health and fitness, through participation and grassroots development, to high-performance and professional sport. The purpose of this Special Issue is to share emerging research issues and the latest developments in the strategies implemented by the fitness and sports sectors to achieve sustainable health levels of the population during the pandemic and the future directions after it.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA
