

## Special Issue

# Applications, Methods, and Technologies of Sustainable Landscape Planning and Design

### Message from the Guest Editors

Globalization and social networks, among others, have changed the way of moving around the world and sharing spaces. The immediacy of the call effect makes tourism concentrate in fashionable destinations which, in many cases, are not prepared to absorb the influx of people without provoking a visual impact on their environments. This is the case of suburban and rural areas with a high landscape value. In many cases, the legislation is a step behind. Planners need objective tools which allow regulating the sustainable use of these landscapes, permitting at the same time local and economic development. New GIS technologies, 3D visualization tools for the simulation of scenarios, and surveys of public participation, among others, are some of the research techniques placed at the service of this purpose. Projects related to these methodologies and techniques, as well as practical cases of application, will be of interest in this Special Issue for policymakers, planners, landowners, and stakeholders.

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Author Benefits

### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
